PCSSD Milestones 2012-2016 and End of Tubbataha Season 2016

PCSSD looks back at its milestones from its humble beginnings - from its new installation last administration in late 2012, to June 2016. Short but fortified - 3 years strong.

It wouldn't be possible if stakeholders - whether from private or public, had not taken an active part to contribute to the development of SCUBA Diving in the country - whether through marine conservation, regulations/policies and accreditation, international and domestic promotion, and most importantly on dive safety in the Philippines.

The PCSSD will not be where it is if not for the movement emanating from the goodness and concern of the PH SCUBA Dive Industry itself.

PCSSD enjoins everybody to continue the support, to contribute in our own little ways for the advancement of the PH SCUBA Dive Industry!

Please take time to appreciate this special video at this link:

Tubbataha is indeed a gem the Philippines should be proud of - it is a UNESCO World Heritage site which abounds in beauty which should be protected not only for its economic and touristic value, but more importantly, it's ecological advantages when sustained.

The article also zeroes in on Discovery Palawan - a celebrated liveaboard which has been supportive of PCSSD Accreditation which attests maintaining high dive safety standards and service.

Check out this special feature on the Philippine Daily Inquirer by Ms. Alya Honasan:
